

Ag Radio programs for April 20 - 26, 2015

Shallow planting of wheat an issue

This is Ag Outlook on 1420 KJCK, I'm Chuck Otte, Geary County, K-State Research and Extension Ag & Natural Resources Agent. What do you suppose the most common problem I see in wheat fields has been over the past 5 years? While late application of nitrogen runs a close second, shallow planting depth is the big problem.

This has been Ag Outlook on the Talk of JC, 1420 KJCK, I'm Chuck Otte.

## Soybean Planting Date

This is Ag Outlook on 1420 KJCK, I'm Chuck Otte, Geary County, K-State Research and Extension Ag & Natural Resources Agent.
